

2014 RIVERSIDE COUNTY FAIR AND NATIONAL DATE FESTIVAL
NIGHTLY MUSICAL PAGEANT
THE MISADVENTURES OF ~~SINBAD~~ SULTAN BEDER
CAST MAKE-UP INTRODUCTION LETTER

DECEMBER 8, 2013

James Rodriguez and his crew of talented artists – including many familiar faces - will be heading the makeup and hair department for the 2014 Pageant.

Your hair and makeup design process begins today - starting from the way you look today! In other words, the way you look today becomes the basis upon which a character design is built for you to perform as in the show.

From this point forward, all cast members are asked to NOT change anything about your appearance. This includes hair color, style, or length. Modern haircuts and styles do not fit well in the period and culture of the stories told in the Arabian Nights Tales and many of you need the time to grow your hair out to be appropriate.

As rehearsals progress, the makeup department will be testing and running makeup and hair/wig looks on certain actors. We appreciate your flexibility and patience in this process.

If you feel that you have a significant reason to need to make any changes, you are asked to contact James first. You may do this via e-mail at zipnumer_1@msn.com (please use this for Date Festival purposes only unless otherwise authorized).
